ChatGPT (5) helped us find the source for the limit on the learning rate in ordinary gradient descent that is needed to ensure convergence (something we already knew the formula for, but we needed a source for it in the report):

<https://chatgpt.com/share/68e30ed6-e894-8009-9c2e-c56642198a99>

We sometimes asked ChatGPT for help on other issues related to syntax in Latex documents. However, in the final report, we did not end up using these suggestions, apart from that which is contained in the conversations above.
